JUAN FRANCISCO RAMÍREZ AGUILERA

GAME DESIGNER | SYSTEMS & LEVEL DESIGN SPECIALIST

juanfran.ragui@gmail.com | +34 689863298 | Málaga, Spain | Portfolio

Game Designer with leadership experience and technical versatility across **Unity and Unreal Engine 5**. Specialized in **System & Level Design**, balancing complex game economies and live-ops for commercial titles, while managing cross-sector projects involving **Defense simulations** and **A.I. research**. Proven track record bridging creative vision with production realities, overseeing publishing pipelines (Steam/EGS), and mentoring multidisciplinary teams in collaborative development environments.

PROFESSIONAL EXPERIENCE

Game Designer - Bionic Ape

Jul 2024 - Oct 2026

- `MMORPG` **Design Leadership & Live-Ops**: Directed post-launch live-ops and retention mechanics for the MMORPG *The Prison* (successfully re-engaging churned players); orchestrated environmental storytelling and lighting design for *Denbora*; and designed core systems and levels for upcoming titles *Bion Clash, The Glyph's Codex* and *Oblivio*.
- `Defense & AI` **Special Projects**: Managed high-fidelity simulation projects for **Defense clients (under NDA)**, designing complex interactive scenario logic and coordinating applied **A.I. research initiatives** with university partners.
- `Publishing` **Studio Operations & Publishing**: Handled end-to-end publishing pipelines on **Steam and Epic Games Store (EGS)**, B2B client contract negotiations, community management and promotional campaigns, ensuring commercial viability and platform compliance.
- `Studio Lead` **Multidisciplinary Production & Mentorship**: Acted as a key generalist, mentoring interns and junior designers; stepped up to resolve critical production bottlenecks across **QA pipelines, Art Direction, Project Management and HR** to guarantee project deadlines were met.

Game Designer (Internship) - Tree Games Studios

Jan 2023 - May 2023

- `Strategy` **Game Economy, Levels & Documentation**: Contributed to historical strategy title *Tercios: Honor and Glory* by designing game economy curves, combat encounter levels, and detailed documentation (GDD) to ensure system balance and strict narrative fidelity.

EDUCATION

Masters Degree in Game Design 2023 - 2024
Universidad Europea de Madrid

Advanced applied specialization in **Level, Narrative, System, F2P and UX Design**. With modules on **Data Analysis and Production.**

Bachelor's Degree in Game Design 2019 - 2023
Universidad Europea de Madrid

Comprehensive generalist training covering the full development pipeline. **Final Thesis** on narrative portrayals of mental health and illnesses in video games, analyzing the intersection between **psychiatry and interactive mechanics.**

SKILLS AND TOOLS
