JUAN FRANCISCO RAMÍREZ AGUILERA

PRODUCTION & OPERATIONS | PROJECT MANAGER

juanfran.ragui@gmail.com | +34 689863298 | Málaga, Spain | Portfolio

Production & Operations Specialist with a solid game design foundation and technical versatility in **Unity & Unreal Engine**. Experienced in bridging the gap between creative vision and business reality, managing end-to-end **publishing pipelines (Steam/EGS), B2B contract negotiations**, and studio operations. Proven track record coordinating multidisciplinary teams, driving **Defense simulations and university A.I. research**, and resolving critical production bottlenecks under tight deadlines

PROFESSIONAL EXPERIENCE

Product Manager and Designer - Bionic Ape

Jul 2024 - Oct 2026

- `Publishing` **Studio Operations & Publishing**: Handled end-to-end publishing pipelines on **Steam and Epic Games Store (EGS), conducted B2B client contract negotiations**, and oversaw community management, ensuring studio commercial viability and store compliance.
- `Defense & AI` **Special Projects**: Managed high-fidelity simulation deliverables for **Defense clients (under NDA)**, aligning technical requirements and coordinating joint **A.I. research initiatives** with university partners.
- `Production` **Production Support & Team Mentorship**: Mentored interns and resolved critical production gaps across **QA pipelines, Art Direction, Project Management and HR** to guarantee project deadlines and milestones were fulfilled.
- `Live-Ops` **Design Leadership & Live-Ops Coordination**: Directed live-ops sprint cycles for MMORPG *The Prison* (re-engaging churned players); coordinated environmental storytelling for puzzle game *Denbora*, and production design for upcoming titles *Bion Clash, The Glyph's Codex* and *Oblivio*.

Game Designer (Internship) - Tree Games Studios

Jan 2023 - May 2023

- `Production` **Production Documentation & Game Balance**: Contributed to *Tercios: Honor and Glory* by maintaining centralized GDD documentation, level design flow, and economic system balance to guarantee on-schedule development milestones.

EDUCATION

Masters Degree in Game Design 2023 - 2024
Universidad Europea de Madrid

Advanced applied specialization in **Level, Narrative, System, F2P and UX Design**. With modules on **Data Analysis and Production.**

Bachelor's Degree in Game Design 2019 - 2023
Universidad Europea de Madrid

Comprehensive generalist training covering the full development pipeline. **Final Thesis** on narrative portrayals of mental health and illnesses in video games, analyzing the intersection between **psychiatry and interactive mechanics.**
